Highland Park, IL 60035

Dear Village Board:

This letter is in support of the City of Highland Park's Dementia Friendly Community initiative. We understand that as our population ages, more and more individuals are impacted by Alzheimer's Disease and related dementias. As a company dedicated to championing the quality of life for all seniors, we celebrate and support efforts that create a welcoming and inclusive community.

Sunrise of Highland Park has served the community for over 15 years and we are committed to providing senior care through our resident-centered approach that focuses on the individuality of each resident and has set the standard in the assisted living industry. Our team of serving hears are guided by our mission, Principles of Service and Values – all of which help encourage independence, preserve dignity and enable freedom of choice for each resident.

Sunrise of Highland Park is pleased to support this initiative and we are committed to active participation in community education and advocacy activities.

As a supporting organization, our community will work to promote a greater understanding of the disease and encourage ways that the community as a whole can support individuals and families struggling to cope with it. Together, we look forward to creating welcoming spaces and enriching the lives of all those impacted by this disease to live to their fullest potential.

The Sunrise of Highland Park team is honored to support and participate in a Dementia Friendly Highland Park.

Sincerely,

Felicité Clements
